

Service and Repair

If you are having a problem with your gear, we are qualified to fix it!

We clean, service and repair your equipment to manufactures specifications, by factory trained technicians.

All of our repairs are handled on a timely basis, with a turn-around time usually under 3 weeks from the date we receive it. We stock a complete line of replacement parts in order to facilitate a quick return to you. If parts have to be ordered please allow additional time for return shipping if necessary. Need your equipment sooner? Expedited repairs are available for an additional fee (less then 14 days, and less then 48 hours)

We are certified to do your routine yearly equipment maintenance at quite reasonable prices! We can check most brands of regulators, valves, buoyancy compensators or snorkel equipment. *Except Dacor manufactured before 2000
